

CISRS (OSTS) Scaffolder (Level Two) Tube & Fitting or System Scaffolding

Duration: 5 Days

Attendees:

Delegates must complete the CISRS Level 1 Overseas Scaffolder 5 day course and have held the card for at least 6 months. Training can be carried out at an approved centre or on client's sites.

Objectives:

To give the attendees such knowledge and skills to enable them to erect, alter and dismantle scaffolding structures of an intermediate complexity in traditional tube and fitting and common system scaffolds. Level 2 Scaffolders should only carry out the erection and dismantling of scaffold structures covered within course. They are competent to work as part of a team, but must not lead operations if the work is outside the scope of the training, adequate direct supervision is required at all times.

CORE THEORY UNITS

- International Best Practice
- International Performance Standards
- Local Legal Requirements
- Components/Materials recognition
- Working with Scaffold Designs
- Manual Handling (SG6)
- Fall Prevention (SG4)
- Foundations/Integrity and stability (Bracing & Ties etc)
- Access & Egress

PRACTICAL UNITS

- Mobile Tower (not aluminium)
- Independent (3 lifts)with Return and Protection Fan or Crash Deck
- Edge protection/Handrails
- Simple Cantilever
- Loading Bay
- Practical/Theory Test

Certification:

Successful delegates will receive a CISRS Overseas Scaffolder Level 2 Certificate of Training and Record Card. (Renewed every five years)

Notes:

Six months site experience is requiring following the course before the learner can proceed to Level 3 training.
